

Best DatPiff and Soundcloud Tunes

2.14.26 @ Home

I opened Soundcloud for the first time this morning in a minute and ended up on a trip down memory lane. Apple music came out like 2016 I think, and my parents didn't buy it til like late 2017, so a greater part of my music listening youth was spent on soundcloud and DatPiff. Shoutout Datpiff man real ones fucking know that app was so goated in its time. BIG flowers too datpiff I remember every month the "Hip Hop TXL" Mixtape would drop and It would have like the hits of the month on it, and since I didn't have a music streaming service I would prey my favorite songs of the month would be on that shit so I could download them on my Datpiff. Damn man thats crazy just writing this out its all coming back I would listen to Dreamchasers 2 RELIGIOUSLY on that app man. Madness. One thing about Datpiff though is that shit was so fucking glitchy lol. It would close on its own all the time randomly and it would take like 20 minutes just for me to click through the app to get to my music. To be fair I was running that shit on an iPhone 4 with maxed out storage so I wasn't doing it any favors. I also remember having to beg my mom to be like "can I please buy Drakes new album on iTunes" lol she would allocate like \$30 to me a month to iTunes purchases. My first lesson in budgeting fr. If I remember correctly the first tunes I bought was Fight Night Migos and About the money with TI and Thug lol. Slappers to this day (insert Deontay Wilder interview TO THIS DAY!). Anyway I'm getting off track. I was on soundcloud earlier and like I said and taking a trip down memory lane and maybe its the level of nostalgia and longing for being a kid again but they are simply just not making music like this anymore bro. Anyways with that being said I'm gonna rip my top 10 songs soundcloud bangers.

Note: Hella mixtapes from that era have been added to spotify in like recent years so those tunes will still be included even though they are now technically on streaming. Side note some of these are going to be real BALL KNOWER tunes. Get right or get left. Also Uzi could have been a lot of this list lol but I tried to Balance it out #versatility.

10: For the Low Pt. 2 - Lil Bibby Wiz Khalifa, Juicy J

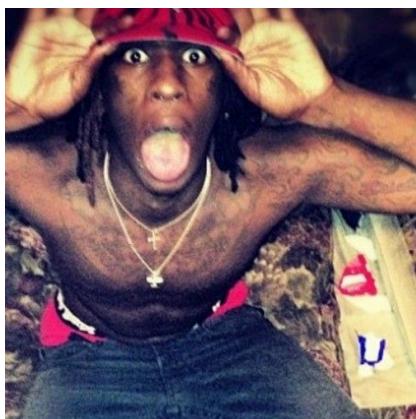

[▶ For The Low, Pt. 2 \(feat. Wiz Khalifa, Juicy J\)](#)

I was in 7th grade in the beautiful safe 95% white or something like that Suburb of Ipswich Mass bumping Lil Bibby on my to and home from 7th grade lol so fucking random but this shit was a fucking

BANGER!!! Shoutout lil bibby lol and no diddy his deep ass voice lol but this was a tune I bumped this off Datpiff so heavy. SERIOUS pre game tune before middle school town ball games. Juicy J man gotta be a top 5 most horny rapper by the way always saying some outta pocket sexual shit. I'm listening to this song rn and laughing cause you shoulda seen me in middle school I was a skinny little dweeb and the fact I was listening to Lil Bibby rap about selling Cocaine is frying me. CERTIFIED CLASSIC in my book.

9. Friend Of Scotty - Young Thug

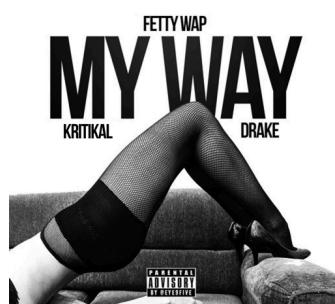

[▶ Young Thug - Friend of Scotty \(New Music 2015\)](#)

NO HOMO BUT MY BLUNT LOOK LIKE A DICK! this is peak Young Thugn WTF do you know about this? Young Thug was my favorite artist from the first Slime Season up through *So Much Fun*. People don't want to talk about this but after that album bro has fallen off hella #youuuulightmyfireeeee. I remember on my family's road trip to Maine that we would do every summer I didn't know how to just make a song repeat on soundcloud so I made a playlist of just this song like 50 times and let it play for the whole 3 hour drive. Slapper and no lie this is a top 10 Thug song. He just doesn't have that dawg in

him anymore to make a song like this it pains me to say it but it's true. 2015-2020 thug you will be remembered.

8. My Way Remix - Fetty Wap, Drizzy

[▶ Fetty Wap - My Way \(Remix\) \(Lyrics\) Ft. Drake "All I gotta ...](#)

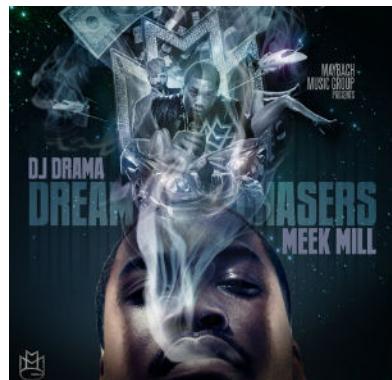

Platinum in the headphones in middle school. Middle of Fetty Wap's linsanity run and then you got Drake who just smoked it and this is like prime nostalgic drake era like when bro had the army cut and dressed so ass (to be fair damn near every1 dressed like ass in early 2010s). I was between putting this and the "we made it" Drake remix here but that just wouldn't have been right. Bumping this too and from aau tournaments carpooling with my dawgs and turning up. Just an absolute tune. Not a song I go back to like the first two tunes on

this list but iconic asf.

7. Y'all Don't Hear Me (Remix) - Meek Mill

[▶ 17. Meek Mill - Y'all Don't Hear Me \(Freestyle\)](#)

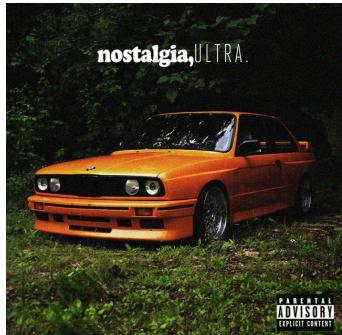

They put this on streaming a couple years ago when they uploaded all the Dreamchasers mixtapes but when this was being bumped religiously in middle school it was a Datpiff Classic. I listened to all three Dreamchasers mixtapes hella and went

through a phase where I swore Meek Mill was the greatest rapper alive and that Dreamchasers 2 was the greatest Album/Mixtape of all time which is insane but at the time I was convinced. No lie you could argue it's one of the greatest mixtapes of all time for sure. This song was so fucking tuff though and a pre game tune. Meek in the mid teens was so goated. He's still ight and gets overrated but is such a cornball and dude does himself no favors.

6. Strawberry Swing - Frank Ocean

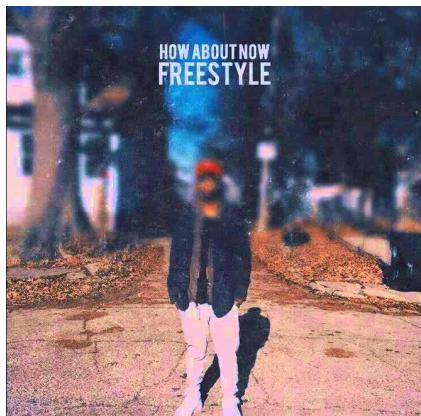

<https://youtu.be/mK6D0rIhkrg?si=OxbEPhUuP5TgnZSx>

No lie this song everytime I listen to it evokes so much emotion in me I feel it in my chest its such a melancholy feeling and I feel like I wanna cry. Frank Ocean is my goat legit and I say that a lot but I genuinely respect that dude's artistic talents so much. Nostalgia Ultra is amazing and this song is just so beautiful and sentimental. I don't even quite know what it makes me so sentimental and emotional for but I feel it so intensely and if that is not the beauty of good music I don't know what is. This isn't like any other track on this list in that its not rap or like of that soundcloud/datpiff like genre but its too incredible to leave out. Shoutout that whole mixtape man. Songs for women, American wedding, We all try, etc.

5. How About Now (Remix) - Bryson Tiller

[▶ Bryson Tiller - How About Now \(Freestyle\)](#)

Game need change I turn that bitch Upside Down!!!!!! Now we are into the songs that I spun damn near daily in middle/high school that I still know all the words too. Bryson Tiller smoked this shit and walked Drake down and then some on his own beat. This one holds a special place in my heart because Bryson Tiller was probably my favorite artist behind Young Thug til 2020 and *Trapsoul* remains in my top 10 albums of all time because of its quality and when it came out I spun that shit non-stop front to back. No album sounds like it or has been able to recreate its quality before or since it came

out. This song would fit so well on that album but instead it was destined to do numbers on my soundcloud account instead. Amazing song Bryson Tiller is so underrated and has been doing this shit a long time. Flowers.

4. Sorry For the Wait - Lil Wayne

[▶ Lil Wayne - Sorry 4 The Wait \(Audio\)](#)

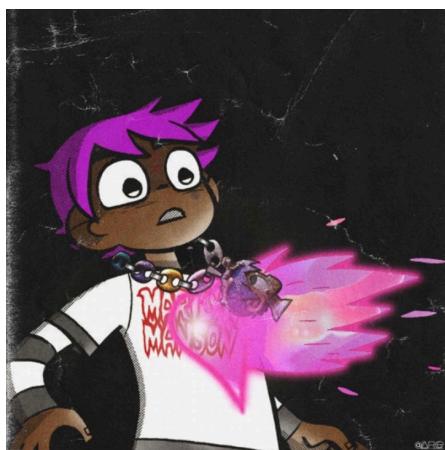

Ain't nobody fw me, first degree murder you can get your degree mf and you aint gotta wrry bout me wonder woman, tun gon ball money tall paul bunyon, real shit pussy gon hate, pound of the kush call that bitch pound cake I hit it from the back

and make the bitch about face she wine baby dont leave i duck that bs bob n weave, everybody tripping, but we aint even tripping, leave ya ass flatter than my new television im talking bout money n the power power n the money this shit magic stan van gundy imma run this shit til im the last man running mack light that shit then past that to me young money mf man we that shit you tunechi gon hard like cialis dont love that bitch i fuck that hoe she pop x i smoke Os tic tac toe and i stink cuz i gotta lotta shit on my mind they say numbers dont matter is that a 6 or a 9 i stand in front of the clock cuz im ahead of the time knock your brains and and send ya head to your mom i aint playing with no sir not me and i cant blindfold with my third eye i yeah i was locked up and like a bird im free in the coupe transform no tyrese hello goodbye where r u wayne? Im somewhere in between joy n pain

My fault I had to get that off my chest rq and yes that was all of the top. I might've put this to low at number 4 no lie. This is an all time tune like one of those songs if it comes on no matter where I am or what I'm doing I'm stopping what Im doing and rapping tf out of this whole song. Top comment on the youtube video has a gr8 point about this song to its gr8 to do for karaoke. Everybody thinks your singing adele and then u just come out and rip lil wayne. Brah the bars and one liners on this song are madness. Lil wayne the greatest rapper alive and all of the sorry for the weight and dedication tapes went platinum on my Datpiff. Nothing but good things to say.

3. LUV SCARS 1600 - Lil Uzi Vert

[▶ Lil Uzi Vert - LUV SCARS K.o 1600 \(Produced By D...\)](#)

Everything about this song is iconic to me down to the art work. Purple haired uzi. This is peak music. Everything bro touched from Luv is Rage to Luv is Rage 2 is real art man. Eternal Atake was gr8 too btw just nostalgic in a different way (shoutout covid lol) and was always on streaming. Datpiff slapper. It was on the four pack of songs he released with XO Tour Life which obviously went on to do crazy numbers so this song right here got overlooked and never got put on an album but real uzi fans did not forget this tune and I myself listened to this more than probably any released Lil Uzi vert song from when it came out til 2020. This is top 3

cuz if you have to pick a song to summarize soundcloud / datpiff music listening experience this song perfectly encapsulates it.

2. Intro - Rich the Kid, Famous Dex, Jay Critch

[▶ Famous Dex & Jay Critch - Intro Feat. Rich The Kid \(T...\)](#)

Cmon man. It just doesn't get better than this fucking whole album. What a trio man. AAU trips, driving around on my JOL and learners permit, bumping this while being high for the first time, hooping in outdoor summer leagues, fucking CLASSIC. Soundtrack to many moments in my adolescent life. Part of this reason this album is so amazing man is cuz while its clearly like from a certain era and meant for the era,

its not like music that is “outdated” or sounds like ass/is corny if you play it now. Everytime I go back and play this album on soundcloud I feel like I’m opening up a time capsule in the best way and the music is so tuff everytime. This is what good music that fits its era but can be played in a nostalgic way but at the same time its quality is timeless. Cmon. How my parents play 80s music and they’re like “oh I listened to this in high school” and you know its hella like synth-y and you can tell its from the 80s that is gonna be this song for me in 2050 if the world still exists then inshallah.

1. Plug - Rich the Kid, Kodak Black, Playboi Carti

[Rich The Kid "Plug" Feat. Kodak Black & Playboi Carti \(...\)](#)

CMONNNNNNNNNNNNNN. Just click that link and catch a vibe twin. The worldstar hip hop tag is such a throwback too to 2010s. All three did there thing. Classic. Not much to say about this one but if you know you fucking know its simple.
